Judge Cole Decides Commissioner The Transactions Chiefly Made Up Mills Was Legally Appointed.

An Issue Raised by District Attorney Davis While Resisting Release of Prisoners.

In an opinion Landed down yesterday Judge Cole quashed the contention recently made by District Attorney Davis power to appoint United States commisexercise the law applying to the release of traders, and even with that class pauper convicts. The question was re-cently raised by Mr. Davis when he received a notice from United States Com-In his decision Judge Cole decided that the supreme court of the District was a three-quarters of a century and during that time they had discharged their duties in a commer identical with that of commissioners in the several States. There was no construction to be placed on the law on

court, with full power to appoint commis-The contention over the poor convicts' act arose from the case of a man who had been sentenced in the police court to pay a fine of \$15 or serve sixty days in jail for an offense. In the absence of the payment of fine the prisoner was taken to . At the end of thirty days, accord-to law, he notified the court that he s entitled to release in pursuance with the provisions of the poor convict act. The district attorney held that the prisoner was not being held adely on account of a non-payment of fine. Judge Cole beld to the contrary, and decided that the United States commissioners of the District were vested with the power to exscute the provisions of the poor convict law.

GRANTS DI NUNZIO NEW TRIAL.

Judge Bradley in Making Comments

Censures Warden Leonard. Judge Bradley yesterday granted a new trial to Bernadine di Nunzio, the Italian nusician recently convicted of assault with attempt to commit criminal assault on Dora Ax, the little eight-year old girl fiving on Brightwood avenue. The prin cipal reason assigned by Judge Bradle; for granting a rehearing of the case was the fact that Di Nunzio cannot speak English; that most of the testimony in the case washi that language, and charteinterpreter employed in the trial was not fully competent to perform his duties.

Besides, be thought, that the tearmony scientified by the girl was incredible in many particulars and would bear further consideration and relicaring.

When Judge Bradley acceded to the re-passt for a new trial, made by Di Nunzio's attorneys, he took occasion to direct at-tention to what he said looked to him like a dereliction of duty on the part of Warden Leonard, of the District Jail. It will be recalled that while Di Nunzio was con fined there, awaiting trial, he was examined by a physician who testified in the triaton behalf of the Government. Judge Bradley said, in effect, pesterday, that the warden of the juit neglected his duty in allowing such an examination to be made, and that it appeared to him to be as near miscondi ing the affairs of the jail as could possibly

THE ORDEAL OF WILLIAMS.

Evidence Submitted in His Trial

The case of Dan Williams, charged with subscribement, again occupied the attention of Judge Bradley in criminal court No. 2 yesterday. M. W. Quinlan. succeeded Williams as fine clerk at the police court, was the first witness called He submitted some testimony as to the reception and distursement of the money which passed through his hands.

T. L. Wollard, a stenographer, testified as to the confession which Williams made when taken before Chief Clerk Richard Sylvester and Major Moore, at police beadquarters. Williams he said, admitted the alleged emberzlement and offered to do anything in his power to make good the Williams told Mr. Sylvester, the witness testified that he had spent the money on race horses. Clerk Nicholas Harper, of the police

court, was recalled to the stand in the afternoon and schmitted some testimony pertaining to the fines collected at the

Mr. Davis raised the of the candidates, and to some extent the same that legally Mr. Mills was not a creat in question was accounted a favor United States commissioner, and that he able matter influence. Other factors which had no power to execute the law involved could be placed on the same side of the account were the continued but not main-tained strength of the wheat market, United States court in every sense of further amnouncement by the Attorney the word, and that it was, therefore, within General that the Union Pacific sale would tis jurisdiction to appoint United States commissioners. Such commissioners had been appointed by the court for the last the Burlington and Quincy Company. The price changes in such a market could not be considered as of much significance The market changed its superficial tonseveral times during the day, according varying drafts of the reports as the subject, he held, which would indicate to the readjustment of the local politics that the court was not a United States situation, but actual liquidation and in vestment were equally missing.

In ordinary circumstances it reight be assumed that such a statement as was made by the Burlington, would have found pro-neuroed stock market reflection, but the stock scroully declined upon its publication. The figures show that 1.4 per cent was earned on the stock in September, and it is expected that the October report will be approximately as good. The companabout 40 per cent, and its net returns in creased nearly 50 per cent. The market was dull and devoid of features yesterday. The principal event in the positical situation in New York, the heath of Mr George, was productive of many opinions as to the ultimate outcome, but seemed to add to the disposition of Wall street to do nothing until after electhen. There was nothing else in the move-ment of the list or in the railroad news that requires any lengthy notice. London did but little in New York, but prices for American stocks improved in the London market to a slight extent. The exchange market was somewhat firmer at 4.84 1.4 and 1.2 for demand bills on London. If anything of a general nature may be said dency whatever to recover. In the late intermon yesterday the market continued dull, irregular and heavy, and entirely professional, though for a few minutes before the close there was some disposicontracts.

Earnings yesterday were fairly good Northern Pacific, for the third week of October showed an increase of \$50,000; Burington had a net increase of \$649,000. and a gross of over a million for September. Residing, for September, showed a not increase of \$153,000; Coal and Iron. for September, a net decrease of \$19,000.

One of the directors of Borlington says. according to Dow Jones & Co.: "The October statement will not make quite as good a showing relatively as that made for September bet nevertheless, the company is doing a large business. Gross earnings are increasing about \$30,000 per month. ' He thinks it quite likely that the company will show 8 per cent on the stock for the year, as has been calculated. This only calls for an average net increase of \$230,000 per month, and the company shows an increase for the first three month of the year so far of Winost \$1,100,000, for the remaining nine months the compan only has to carn the net increase of about \$178,000 per month to show the 8 per cent carned. The management has decided not to issue a report for the twelve months ending June 30 last, and the next annual report to be issued will be for the twelve months ending June 30

It is unquestionable that Burlington's carnings were slightly disappointing. The stock was strong in the morning, but after the figures appeared it sold off.

It seems probable that Union Pacific will advance. There seems no reason why it should not do so. It looks like one of the good purchases in the market at preent prices.

"The testing of retail trade is in progress but results are remarkably retarded by long-continued cold weather and also by the weather in Southern districts. Even from that quarter some large orders lately re ceived show better distribution than ex-pected. In spite of unseasonably warm weather, which greatly hinders retail deal ings in winter goods at all points east of the plains, the large number of supplementary orders with urgent pressure for quick de livery make it clear that the sales in many ranches have exceeded the expectations of dealers, so that replenishment of stocks is not yet finished. Meanwhile wholesald trade and orders to manufacturers have been slower than when the rush was greatest, but have nevertheless been large for this stageven in a year of general prosperity, for the payments through the principal clearing

houses have for the week been 3.9 per cent larger than in the same week of 1892, and for the month 6.1 per cent.

Money markets remain free from embarassment. Commercial loans have much percessed, and ten large banks report per cent of their loans for the week in that form, the important feature being Southern all paper for cutton buying. The fall of cotton to 6 cents for spot and 5.88 for January, making the price the lowest since March 14, 1895, and not half a cent above the lowest for nearly half a century, is partly due to embarrassments caused by the fever, but also indicates the prevailing sellef that the quantity to come forward

Wood markets have become quiet. Prices are said to be well maintained, though 2 to 3 cents below former going prices. The market for goods is not active. The boot and shoe industry lain a similar

Brudstreets will say

General trade retains most of the features of a week ago, with a continued check in the me-vement of staple merchandise. Mercantile collections are slower, filling in orders are smaller and more infrequenand business in staple lines for the latter half of October, aside from that in wooland metals, has been somewhat disappointing The Northwest continues to make re allively inore favorable reports as to trade although at Milwankee and Minneapolis mild weather has checked distribution.
